## *Healthcare Apprentice at Ardenleigh*

### *My journey so far...*

I started my journey with Birmingham and Solihull Mental Health NHS Foundation Trust when I applied for the post of a Health Care Assistant as a Health and Social Care Apprentice.

After the successfully passing and completing the recruitment processes and interview, I received a call from BSMHFT and was told I had the job at Ardenleigh! I was very pleased!

As I progress in to my Apprenticeship, I am really enjoying my role and time here at Ardenleigh. There is so much progression to be made in Mental Health and after my Apprenticeship is finished, I am thinking about pursuing a career in Nursing as I now feel this is the job for me.
